TRI GRIP TECHNOLOGY

Gilbert's new patented Triangular surface grip pattern represents a major step forward in grip technology on training balls.

Tests have shown that this new more defined pattern, is hard wearing and allows the player more surface area contact with the ball when handling.

Richie Gray | Inventor of the Control-A-Ball System

DEVELOPED WITH FORMER SPRINGBOKS AND MONTPELLIER COACH, RICHIE GRAY, CONTROL-A-BALL IS A CATCH/PASS SYSTEM MADE UP OF FIVE DIFFERENT BALLS (MATCH, LIGHT, HEAVY, GRIP-LESS AND UNSTABLE). USING DIFFERENT BALLS AT DIFFERENT TIMES BEFORE USING A STANDARD BALL GREATLY ENHANCES PLAYER AWARENESS AND SKILL LEVELS.

TRAINING EQUIPMENT

All Gilbert pitch kits and contact equipment are made to order in our own factory from the highest quality materials.

For a simple design, with no added words or logos, you can use a combination of colours chosen from our stock vinyls shown below.

Should you wish to include more colours, logos or images then we can produce using a state of the art digital printing process.

Any design - we will guide you through your choice.

All equipment is made with high density foam covered with PVC in a high quality finish that can be wiped clean.

STOCK VINYL COLOURS

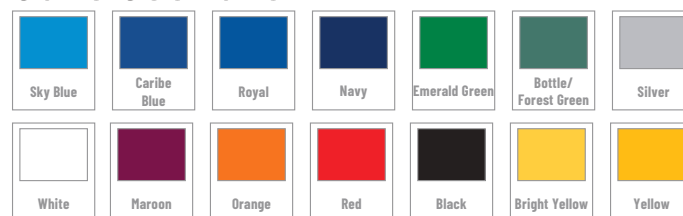

Our stock vinyl colours are detailed below. We can use these to produce a simple, yet effective design with no additional print.

DIGITAL PRINT

Should you wish to include more colours, logos or any design of your choice we will work with you to produce a design and use our digital printing process. Cost for digital printing on application.

MEASURING:

CHEST CIRCUMFERENCE

Measure all the way around - taking the tape approximately 2.5 cm from pit of arm, around the fullest part of the chest. Try to keep the tape level.

WAIST CIRCUMFERENCE

Measure all the way around- taking the tape around the natural waist - (this is the narrowest part of your waist).

Try to keep your tape measure level. Our trousers and shorts are elasticated so there always plenty of room for movement here - if you are confused - Use the hip measurement.

LOW HIP CIRCUMFERENCE

Measure all the way around- taking tape around the fullest part of the bottom. Try to keep the tape level

INSIDE LEG

Measure from the top of the inside leg to bottom of your heel.

Please remember you can always take a trouser up if they are little long, try turning the waistband or sewing the hem

GENERAL TIPS:

1. Measure yourself wearing underwear - do not measure over clothing.
2. Stand straight and keep both feet on the floor.
3. Make sure the tape measure is kept level.
4. Ask a friend to help take your measurements - (it's sometimes easier to have help).

Our ranges are designed with layering in mind. If you buy a jacket for your body size, you can be sure you will be able to fit a top and a light sweater underneath.

****All measurements are an approximate guide.**

Finding the perfect size isn't always easy. The fit of your clothes depends on many things, including the cut , fabric, styling and even the undergarments you are wearing!

By following our body guide and how to measure guide, we hope to find you the best possible fit. It is always suggested that you measure more than once as your posture changes when you move and sometimes effects the measurement you take.
